INDIVIDUAL CARE  
INNOVATIVE SOLUTIONS**

**“We don’t just provide a policy, we provide a team.”**

Workers’ Compensation costs are an important factor in your company’s bottom line. Here at Wraith, Scarlett & Randolph, our team of professionals work with employers like you - exploring new ways to reduce your insurance costs. Our dedicated, onsite WSR Claims

Specialists are proficient in discovering ways to lower your experience modification, control claims costs and reduce your premiums. Our **Safety and Loss Control Department** will instruct you regarding Cal/OSHA compliance issues and the elimination or reduction of workers’ compensation injuries and claims.

#### **Lower Premiums can be yours!**

Our approach is simple. At WSR, we partner with you, sharing our education and experience to assist in controlling claims costs. For example, when you report a new claim to your insurance company simply fax us a copy of the injury report. We track the claim on your behalf.

After discussing the claim, we act as your advocate representative, contacting your insurance company, becoming a liaison between you, your insurance company and the injured worker. This assures that the proper steps are taken in handling your claim(s), thus minimizing claims cost.

Questions concerning the legitimacy of the claim? Contact our office by phone at **(877) 920-8500** and ask for our Workers’ Compensation Specialists.

#### **We’re here to help**

Depend on our Claims Specialists to attend claim review meetings with you and your insurance company when discussing open claims. Working together, our team will provide you with the tools you need to keep your Workers’ Compensation costs and claims under control.

**Some of our Safety & Loss Control Services available at no additional cost...**

#### **On-Site Evaluation:**

We will conduct an analysis of your written Injury & Illness Prevention Program (IIPP), safety programs, hazards and risks faced by your company.

#### **Safety Recommendations:**

Based on the evaluation, we will provide suggestions that can be implemented to make your workplace safer and compliant with Cal/OSHA regulations.

#### **Loss Analysis:**

Review of past claims and losses to identify problem areas or trends that affect your workplace.

#### **Safety Training:**

Conduct safety-training meetings for your employees and/or provide training topics and materials for your supervisors to use.
